

1. When running, try to gather makeshift weapons.
2. Call 911 only after you get outside the building.
3. Whenever possible try to disrupt the shooter.
4. When possible set off the fire sprinkler system to disrupt the shooter's view and concentration.
5. A fire extinguisher is an excellent make shift weapon.
6. The shooter is killing people and you're equipped with a baton and have an opportunity to use it. You should not strike him in the head because you were trained not to strike anyone on the head.
7. Putting books or reams of paper in a backpack and then putting it on backwards, could save your life.
8. Often, the shooter is better armed than the first responders.
9. The more you delay the shooter, the less time he has to kill people.
10. Once you're in a room and the door is closed, you will be safe.
